## Vaccination Clinics:

Did you know it is New York State Law for dogs, cats and domestic ferrets to be vaccinated against rabies? Even indoor canine and feline companions are required to have updated rabies vaccinations. As such, each year the Department of Health hosts **FREE** rabies vaccination clinics. The year's schedule will be posted on the listed website. As a resident of your County, you may attend any of the clinics; you do not have to wait for the one in your township. Be sure to share the records of vaccinations performed at clinics with your veterinarian.
